Short Description

Piiloset BioTwin TM is a special multipurpose care solution for cleaning, disinfecting, storing, rinsing and moisturising of silicone hydrogel and all other soft contact lenses.

Description

BioTwin TM is a special multipurpose care solution for cleaning, disinfecting, storing, rinsing and moisturising of **silicone hydrogel and all other soft contact lenses.**

Double active **Twin-EdaXyl TM** lubricates contact lenses and removes impurities from the lenses.
The biotechnology produced Hyaluronic acid moisturises contact lenses and eyes.

BioTwin is produced in Finland and is developed in cooperation with the Finnish Asthma and Allergy Association , bearing the related certification.

Piiloset products are not tested on animals
