Description

The contact lens care solution **BioSoak** was developed by OY FINNSUSP- Finland in cooperation with the Finnish Allergy and Asthma Federation.
It does not contain any fragrances or ingredients that may cause sensitivity or irritation to eyes and has been approved after strict evaluation of specialized doctors and chemists.
This is a highly efficient, easy- to- use and safe solution containing a **biodegradable biological detergent** which -apart from its cleaning, disinfecting and storage efficiency - results to an excellent feeling to most sensitive or allergic eyes.

It is suitable for all soft as well as silicone hydrogel contact lenses and has been proved absolutely convenient for the most sensitive eyes.

The solution is available in **360ml, 240 ml, 100ml (travel) packaging.**

Piiloset products are not tested on animals.
